**PURRING
PORTRAITS**

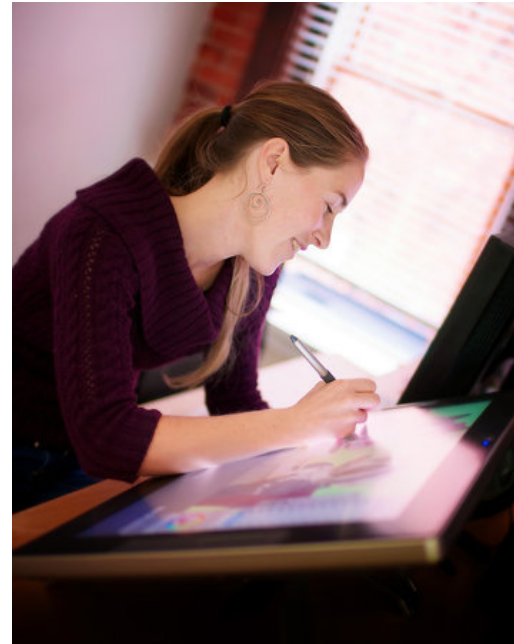

from the artist

Panting Portraits is a small business run by myself, my husband Matthew and "Hugh Jackman" - our Aussie. I design and draw each image using a special digital drawing screen called a "Cintiq." Matthew helps with the design and prepress work. We run all the prints ourselves, and package and assemble all products at our studio in Bellingham, WA. Jackman the Aussie keeps us in line and safe guards us from squirrels while we work.

My Pantings are a whimsical look at mans-best-friend. Each of my paintings are designed with humor and wit relating to each dog breed and other dog related phrases. I truly hope you enjoy my paintings, and that they bring a smile to your store!

Each image I have created is currently set up with stock ready to order as Matted 5x7 or 8x10 art prints, cards and magnets. Additional sizes and customizations for your store are available upon request.

We aim to please, so let us know if you would like to see another size or *custom designed print* for your store.

Dogs Need for Laughter™
by Laura Bergara

I was born with an innate appreciation and love for all animals great and small. If I could have had the job of my dreams I would have chosen a graffiti, a caricature or a doggie. After three years of creating, my parents advised me to have the realistic yet of my dreams - a dog.

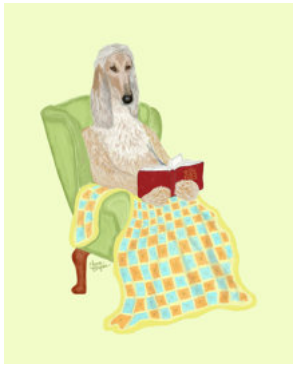

The concepts behind my work are based on pure, but there is a deeper theme. Each dog is being put what it was created to do. The dogs look playful or serene as they are engaged in doing what comes most naturally to them. Do you view my "portraits"?

I hope you will not only enjoy the humor, but that you will be encouraged to be what you were created to do... And to sleep as they do!
